

ATOM Product Release Notes

Version: 2.4.68 (July 2020)

Includes all changes since Atom version 2.4.56

RELEASE DEPENDENCIES

- Release includes Atom API Version 2.4.68, Atom for Android 2.4.68 & Atom for iOS 2.2.62
- Requires NexGen Version 3.5.580

NEW FEATURES & ENHANCEMENTS

- **Sales Assistant** – Transform your business with the new Sales Assistant module. For those of you who need a sales automation tool, Sales Assistant will be the transformative change to your business needs to take you to the next level. Sales Assistant will enable your sales team and management to schedule, track and report your sales activities to manage your sales activities more effectively and not miss those important deadlines. For more information see the Documentation & Training section below.
- **Enhanced E-Ticket Cancellation** - Added new functionality to be able to cancel an e-ticket up to the point of the first customer signature and retain full e-ticket accountability and history. This feature can be turned on in system defaults on the new Features tab if you desire to use this functionality. For more information see the Documentation & Training section below.
- **Show Certifications** – Adds a Show Certifications button on the Job Screen to be able to view the Unit/Employee Certifications for the units/people assigned to the job. Atom users are now able to e-mail the certifications directly from their mobile device.
- **Trucking and Load E-Tickets** - Added unit and employee comments to the Trucking and Load e-tickets.
- **E-Ticket Checklists** - Added unit code to the LEM e-ticket checklist and to the subject line of checklist email.
- **Invoice Screen** - When emailing an invoice from the invoice history screen the system will now use the invoice templates from maintain documents.

SOFTWARE ISSUES ADDRESSED IN THIS RELEASE

- **Calendar Control** – On the calendar controls, disabled the calendar selection to/end date based on the from/start date. (Case 17109)
- **Job Storage Issues Corrected:** Changed storage item location to use dropdown and removed constraint that limited storage ticket number length to 7 characters. (Case 17917)

ATOM Product Release Notes

SYSTEM ADMINISTRATOR NOTES

- **Menu Security Setting Changes** - Added the following items that are enabled by default. Check your Menu Security settings for all profiles to ensure the access to these new items are enabled/disabled as appropriate for your organization.
 - **Atom Only Screens: Tasks** – this is a new feature of the Sales Assistant module.
- FCC support accounts are excluded from ATOM license counts and device registration functions with this release.
