## System Administrator Notes

**SECURITY NOTICE (ATOM Android):** With the recent security/compliance policy changes by the Google Play Store, we have been required to update Android ATOM App to handle user data securely without option, including transmitting it using modern cryptography. All the ATOM app to API calls now automatically uses the HTTPS protocol to secure communication and user data. This change will NOT affect customers who are using SSL certs for their ATOM API and are already using the HTTPS protocol. This change will affect customers who are running the ATOM API without an SSL Certificate and using the non-secure HTTP protocol. Users who are running the play store version of ATOM will receive an error message indicating that they are "unable to resolve host – no address associated with host name". We have contacted all affected customers to resolve but want to ensure you are aware of this change to the Google Play Store version of Atom.

## System Default Changes

### General Tab Changes

- **New External Payroll Company: GUSTO** – Added a new external payroll 'GUSTO' to for external payroll export.

### Invoice Tab Changes

- **New Field – Disable Detail tab when Invoice is Approved** – Added a "Disable Detail tab when Invoice is Approved" setting, based on the flag, disabled the invoice details while the invoice has been approved. Default=unchecked.

### Quote Tab Changes

- **New Field – Show All Variances** - Added an SSD flag 'Show All Variances' to mark all the estimates as needs approval and the negative variance records to be shown in red. Default=unchecked.
